# THE STORY OF TICKETX

*"What is written here is completely true,  
There are no Quotes from Urban Legends."*

Hundreds of thousands of complaints and Chaos from ticket operator companies, as well as absurd practices applied to event participants given the lack of options suffered by event space operators with whom we have close relations, and seeing that their rights are being usurped wherever service tariffs of up to 25% are not valued and ignore people, encouraged us to establish TicketX, TicketinEvent , Expresevent.

As TicketX, we laid the foundations of ticketx's Software and Ar&Ge as of December in line with the complaints received from existing Ticket Operators. Dec.We aim that we can do better with our 06/06/2024 Team. We started to develop ticketx, the most valuable names of the Software Sector, for 8 people, all in their fields, in order to provide the safest ticketing operation service to Operators and Customers, we completed the best ticketing by completely eliminating the Conscious or Unconscious shortcomings they made before criticizing the other operation services By making the TicketX infrastructure fully ready for service from 08/08/2024, our Software Team started with Ticketing System, Accommodation, Restaurant & Bar management, Stock Tracking systems for our services , We have prepared +30 Application Options on a Single Infrastructure for businesses that are ready to work simultaneously with Parking Valet systems.

The biggest situation that has revealed us in the Development process of Ticketx is that we have completed the entire development process of ticketx without using any external software sources. TicketX Servers are prepared for the use of an excellent service experience at a level that can primarily serve our Customers and Business Partners with an uninterrupted service infrastructure that will not be affected by any system outages and Information outages, even if there is no internet. First of all, the conditions they put up against their Partners, especially the Institutions providing Ticketing Operation agency services, and the fees charged from customers caused us to develop TICKETX better when it comes to unthinkable situations in Turkey 2024. Our goal is that all our services, starting from Turkey, are ready to serve in all countries and locations of the world and provide an excellent user experience. There is a well-known saying in Turkey that a Bad Landlord makes a Tenant a Property Owner.! We owe a debt of gratitude to all Ticket Operator Companies that guided us to this during the Establishment and Development processes of Ticketx. Together with TicketX, we would like to thank you for bringing a ticketing operation institution that focuses on Service and Security in a real sense, especially in Turkey and the World, to Turkey and the World, and bringing us to these days in a very short time, where they will never be able to compete under any terms and conditions. conditions.

*"Ticketing Operators Whose  
Commission Deductions Exceed  
25% on the One Hand"*

*"On the One Hand, Ticket Operators who  
Extort the money of people Who Have  
Come to Have Fun on the One Hand "*

*"TicketX, which provides the  
best service on this Side with  
unconditional Satisfaction "*

First of all, we are facing an unprecedented system in the world , Companies that receive a Commission from the Event Owner for Selling the Lowest Tickets by 12% . He also receives 10% from the Client for participating in the event. No Kidding, The Actual Order Price is V.Except for the b Extras. Why? In the World of 2024, no business owner, Artist, can Earn a Net 25% after deducting business expenses! The Owner of Thousands of Complaints that have no Features, Ticketing Companies Provide Net Earnings on the same best terms as the event owner, as they provide only a Virtual ticket service. That's what we're here for and that's what we're going to keep standing here for.

Ticket Operators who are non-refundable Ticket fees written in the smallest font compressed between Ticket Sales items, people who do not come for any reason, including the Last Moment, or who cannot come for undesirable reasons, do not find 20 people in an event, Operators who wall the doors to customers who want to request refunds, why do you do this? Dec. Are you so hostile to people when you are at the forefront of so-called social responsibility projects? Do you consider it legitimate to usurp people's rights? and it's a shame for you, the business owners who condone this.

This Is Us ! TicketX Team is ready to manage the Best Operations Flawlessly with our systems and policies based on protecting the Competent Rights of Event Owners and Participants in the best way, our 100% Satisfaction understanding! Here. An Operator who Argues that drinking WATER is the right to life, It would be Impossible for People to be Considered Prisoners at the Events they participate in for Fun. This is Us Today, Tomorrow and Always, Our Systems are Now Ready to work in the Service of All Our Customers and Partners. We invite you to your home. This Is Yours !

## Who is Suleyman DEMIR ?

Süleyman Demir is a respected businessman who has made serious efforts and contributions to the recognition of Bodrum and Turkish tourism by opening Halikarnas in 1979, enabling it to become a world brand. Süleyman Demir, one of the pioneers of Turkish tourism, has been the first tax in Muğla province for many years.

Süleyman Demir, who graduated from Diyarbakır Maarif College and Marmara University English department, is actually a born tourist. Demir, one of the first touristic hotel operators in Turkey, after running his father's hotels for a while, he continued in the tourism sector, which he loved very much. At a very young age, he opened his first tourist resort in Bodrum in 1979 under the name of Halikarnas Hotel and Club and successfully turned the world's attention to Bodrum in a very short time.

Süleyman Demir has always contributed to keeping Bodrum on the agenda by gaining recognition with the most striking stands, unusual and innovative promotional materials, music and interesting shows that he has performed at International Tourism Fairs and meetings both in Halikarnas and with the Halikarnas brand, as well as documentary films promoting Halikarnas and Bodrum, many of which he personally directed. Süleyman Demir, who has been given honorary awards by the Turkish Promotion Foundation (TUTAV) and numerous institutions and organizations, is also one of the founders of the Bodrum Promotion Foundation (BOTAV) and is a member of organizations such as the Tourism Investors Association, the Turkish Russian Friendship Association, the Turkish Promotion Foundation and the Bodrum Chamber of Commerce.

Halicarnassus, which has been the subject of numerous laudatory and admiring news, articles and visual publications by world media giants such as Time Magazine, Der Spiegel, RTL and BBC, has always maintained its feature of being a place frequented by many famous statesmen, princes, princesses and world stars. Mick Jagger, Bette Midler, Dustin Hoffman, Princess Caroline, Princess Margaret, Lady Sarah Armstrong, Rockefeller, Valentino, Sting, Richard Branson, John Franco Ferre, Phil Collins, Michael Caine, Ahmet Ertegun, The Blues Brothers, Ronald McDonald, Pamela Anderson, Kid Rock, as well as numerous famous names from Turkey were among the guests and regulars of Halicarnassus. Related to these, numerous positive columns, news and visual publications have appeared in the international press about Bodrum and Turkey. These articles made important contributions to the promotion of Bodrum and Turkey.

Halikarnas, which Süleyman Demir opened for business in 1979 in Bodrum, which was still known as a fishing town at that time and had no tourist facility other than hostel management, became one of the most important factors in the promotion of Bodrum and made a serious contribution to making Bodrum a world brand in a very short time by gaining an iconic reputation. Halikarnas Hotel and Night Club, which is a magnificent entertainment center for 5 thousand people, also played an important role in making Bodrum a place frequented by world-famous rich people and celebrities. Halikarnas, which Süleyman Demir opened for business in 1979 in Bodrum, which was still known as a fishing town.

## Why was the Halikarnas Club Closed ?

**38 YEARS OF HOSTING CELEBRITIES**The WORLD-famous entertainment venue has hosted names such as Mick Jagger, Bette Midler, Dustin Hoffman, Princess Caroline, Princess Margaret, Lady Sarah Armstrong, Sting, Phil Collins, Michael Caine, Ahmet Ertegun, The Blues Brothers, Pamela Anderson and Kid Rock for 38 years.

Why?

Tourism is going badly this year. If Halicarnassus Disco had continued, it would have caused a hundred percent damage, but the reason for closing is not a concern about damage.

Süleyman Demir is an idealistic tourist. He won't look at the damage or anything.

So why did he close the famous club?

The land on which Halicarnassus was founded did not belong to Süleyman Demir, it was rented.

The owners (7 heirs) asked for an inconceivable rental price this year. A figure that is impossible to pay...

When there was no compromise, the men said 'We will sell the land'. Süleyman Demir said, 'Then I'll buy it,' but the asking price was high.

According to the expert report, the land of Halicarnassus was worth a maximum of \$ 8 million. Süleyman Demir offered to pay \$ 12 million with an excess of 50 percent. The owners insisted on \$ 30 million.

Upon this, Süleyman Demir decided to close the club and demolish the facilities he built himself and return the land to the owners as on the day he bought it. It destroyed the club like an earthquake...

The dozers worked, the buildings were demolished, and Süleyman Demir handed over the land to the owners as he received it in 1979... And thus Bodrum lost a major entertainment venue.

If I were personally an authorized person, I would do what I would do, make a reconciliation between the owners and Süleyman Demir and save Bodrum from a big loss.

Now the Basement, I think, has turned into a wounded bird, it can't fly!"

"NOW LET THE OWNERS CRY AS WELL..."

"When the driver of a taxi I got into in London many years ago found out that I was Turkish:

'I'm saving money,' he said.

'Why are you saving up?'

'I'm going on holiday in Bodrum this summer. I will go to the Halicarnassus Disco and dance a lot. It's a great place,' he said.

There is no longer that wonderful place! And it won't happen after that either!

it is very difficult for landowners who wanted \$ 30 million to even sell it for \$ 3 million now!

Because, an operator who is going to buy or lease the land must spend millions of dollars in order to establish a facility like Halicarnassus. Only tourism-loving operators such as Süleyman Demir can afford this. No other businessman can take on such risky business.

We have a beautiful proverb: 'A little greed brings a lot of harm!' because...

Now let the owners cry and let the land bind...

They have caused harm to themselves and to the Basement!"

### So what is the situation we are facing now?

In the middle, Halikarnassos, Halikarnas Arena, which has Become a World-Famous Brand, will not be able to get close to HALIKARNAS THE CLUB, Quality businesses have Sprung Up, Moreover, PR Campaigns have been Conducted for Months because HALIKARNAS is Reopening, claiming that the Owner is Süleyman DEMİR! Having Performed for Exorbitant Fees for 38 Years When the Domestic and Foreign Economy was Difficult, Our Promise was that They Started Taking Their Scenes in FAKE HALICARNASSUS on Celebrities! Not only did they finish Tourism by Hand, they ignored the HALIKARNAS CLUB, which has been a plane tree for years, without showing an example of Loyalty.

Dear People, Dear Bodrum Residents

halikarnas the club is an internationally respected brand that proudly introduces Bodrum to the world, which was born in Bodrum in 1979 and hosts unforgettable memories with the principles and innovations it has brought to its life.

now HALIKARNASSOS is in the same place as the address where halikarnas the club has been operating for 38 years, THE LEGEND IS COMING BACK, HALIKARNAS ARENA and similar names, and it has been learned with amazement and sadness that deliberate uses have been made that will lead to confusing HALIKARNAS THE CLUB, even personally, with various promotional tools.

We would like to state THAT WE DO NOT HAVE ANY COMMERCIAL RELATIONS WITH THIS PLACE CALLED HALIKARNASSOS AND HALIKARNAS ARENA.

ALL KINDS OF CIVIL AND CRIMINAL PROCEEDINGS HAVE BEEN INITIATED IN ORDER NOT TO BE HARMED BY MISLEADING OUR PRECIOUS PEOPLE IN THIS WAY WITH OUR REGISTERED AND WORLD-RECOGNIZED BRAND HALIKARNAS, WE SUBMIT TO THE INFORMATION OF THE PUBLIC

HALICARNASSUS CLOSED with All kinds of games to be taken after someone, along with the Turkish Tourism and Entertainment Life that has made Bodrum's Economy one with the place, unfortunately, the rows of similar issues in Turkey do not seem to end. It is reflected in the Activities of the People of the Country and the region, who are doing their best to go over the Upright and Visionary operators of the Entertainment Sector.

The Situation of Bodrum is now in front of the eyes.

## Who is Osman BARUT ?

As the founder of Mawish Beach & Club and Palermo House Hotel, he is the best Beach Club operator in the Marmara Region. Bodrum Halikarnas Club, as in our article, 23 Years of Experience that allows the Yalova Region and its Surroundings to be branded on serious Leisure tourism, Mawish Beach & Club and Palermo House Hotel, a business that continues its activities in the Yalova Cınarcık Teşvikiye Region, has managed to become the first place that comes to mind when it comes to Yalova. The business, which is visited by an average of 1500 People daily during the Summer Season, is shown as the biggest role model for Visiting Çınarcık and Yalova provinces, especially Teşvikiye Region with the best Artists of Turkey during the summer season.

## Event Every Day During the Season, Concert Every Week

Osman Barut and Mawish Club are Almost the Iconic Brand of the RegionA business that causes Domestic and Foreign tourists to plan a vacationEntertainment at Mawish Beach & Club starts in the morning and continues until the first light of the morning, Entertainment that starts with After parties during the day turns into a Show world in the evening where DJs and Artists Perform, It is almost impossible to find a place in Hotels in the region during the season.

## The Reason Why It Is Preferred

from 7 to 77, everyone is Safe and the Alternatives are running outbeing an endless business comes at the top of the preferences Mawish with its immaculate beach and the best staff in its field becomes the first stop of all holidaymakers, the business that makes its guests feel like they are in a different country with the constantly changing concept of the best stage sound systems in the region does not give up the title of the most favorite business in the Marmara region.

## The 2024 Summer Season has SEEN AN INFLUX of artists

## The Common side of Halikarnas Club and Mawish Beach Club

Famous operator Osman BARUT and Neighboring businesses Seem to Be in Trouble with the Mayor of Yalova / Cınarcık / Teşvikiye, With the news in the media and the information we received from the Region, the Mayor of Teşvikiye is said to be doing everything in his power to Close the businesses that Exist primarily at the Mawish Club and along the Coast, Along with the latest reports, the Mayor receives the Annual Rental fee from businesses located in the Ormaniye Region, but Does not Pay to the Ormaniye, then the Ormaniye and the State make an Eviction and Demolition decision, and Then the Court Overturns the Decision !

## Does the Mayor of Tesvikiye Know about the Losses to Bodrum after Bodrum Halikarnas Club Close if Mawish and Other Entertainment Venues are closed and not supported ?

Bodrum Halikarnas The Club, an Investor Operator who made Bodrum a Basement After what was done to Suleyman DEMIR, the Regional Economy was Reduced to Minus 65% with Real Rates, Then the Loss rate of 65% Could not be pulled down to 50% by 2024 Bodrum lost a lot of blood Entertainment tourism was completely finished, They pulled the Basement into the Infamous circle of Disgrace in the Equivalent enterprises opened instead of the Halikarnas Club, which they had closed. Considering the Teşvikiye Region that wants to be closed as an example of this, it will directly affect the Çınarcık / Yalova and Marmara Regions in the first place.

Fotograf - 2024 Hande Yener Konseri

In an enterprise where 2000 people log in and out during a normal Day, the average daily income to the economy is in the band of 2 million TL, while it represents 60 Million TL per month. The best Example of places that want to be closed or that want to be Transferred to others after closing is BODRUM HALIKARNAS CLUB. Everyone should take this Example into consideration and support the Region accordingly.

KEMER  
SPECIALIN  
INTERVIEW****Hello Mr. Ihsani, May we recognize you ?**

As the child of a teacher father, I was born in 1979. After primary and secondary education, I finished high school as a graduate of Ürgüp Tursem. In the ongoing process, I have had 10 years of hotel management experience in Antalya, ranging from bar chef to FMB manager. Due to the growth of business in the alcohol distribution company run by my brother in Niğde, I returned to my hometown to help with business. In 2020, we became one of the alcohol importer companies by adding the distributorship of Scotch Blue brand in Turkey, which has never been sold in Turkey until today, to our structure. In the ongoing process, we have turned into a company that imports alcohol from 5 countries. Currently, we continue our commercial life in a structure where we have 4 direct distribution warehouses and 45 distributors in Turkey, where we are both importers and distributors in our direct distribution warehouses.

**Scotch Blue Brand has been the Most Preferred Brand in Turkey and Cyprus for the Last 2 Yearsit has entered among the Decanted Whiskey Brands, We have Scotch Blue and Other Brands of Yourcan you give me some information about him?**

Yes With the Scotch Blue brand, we have won the favor of whiskey consumers in Turkey and the TRNC. Sunday Sunday, the biggest factor in this, especially for Turkey, is the presence of a domestic player in the rapidly growing whiskey market and the fact that the product fits the consumer taste has made us prominent in the market. Of course, within the developing Sunday, you need to develop your product portfolio. First of all, we have presented our 13-15 and 20-year-old single malt products to our consumers to strengthen the Scotch Blue brand. After that, we enriched the distillery group in the tequila category with the El Toro brand, and in the gin category with Strange Luv and Kengiston Dry Gin. Thanks to our cooperation with Moldova, we have expanded our portfolio with the varieties of Castel Mimi castle, Mimi and Chateau Nobles branded wines and Florica branded wines produced by Gagauz Turks. The new products that we plan for our portfolio will also be available to consumers in 2025it will be presented to your preference.

**We hear that you are a very good operator, the events and innovations you have carried out have attracted attention in the entertainment sector. What is your goal.Mr. Ihsani ? Do you have a project that you see as a summit?**

Thanks. As I mentioned above, my tourism background has allowed me to learn what people will enjoy, how to be happy. Thanks to social production, it enabled me to realize projects that everyone will enjoy and be happy without giving up on business discipline by establishing the right communications. As you can imagine, this will not be the peak of the sector. You need to constantly innovate and improve, the projects I do to excite people, if the example is taken, it means that I am doing the right things.

**Apart from ScotchBlue and other brands, which areas do you invest in outside the beverage sector or which areas do you operate in?**

Due to the fact that I am so involved in the entertainment sector, we have a performance venue called Casablanca in Niğde with a capacity of 3000 people. In addition, we are carrying out studies for accommodation facilities in Cappadocia.

"TicketX IHSANI KEMER EXCLUSIVE INTERVIEW"

**As an operator and investor, how do you think the institutions that provide ticket operating services, not only as TicketX, but in general, should be?**

If you are doing a business for the entertainment sector, your priorities will be the satisfaction of your guests. This is where their first contact with you is, going through booking and ticketing. Here, it is necessary to create a space where the guest will feel safe. First of all, the operator needs to correctly transfer and offer the services that our guest will receive. Businesses also have to behave accordingly. The operator providing the service should act selectively in this regard and should quickly resolve our guest's requests.

**We would like to get into your personal life a little, if you'll excuse us, Mr. Ihsani, you have a very active life in Turkey especially. All eyes are on you. Are there any positive or negative sides to this for you?**

If there are areas where a person feels good, there is no difficulty with this, my outlook on life is to be constantly for your life, to communicate, to create opportunities for people, so very negative things do not happen in my life. However, my perfectionist approach is challenging from time to time.

**You represent a particularly difficult sector group in Turkey, what kind of difficulties do you face with your business and investments?**

Although we do not call it a difficulty, we are trying to fulfill the requirements of our business within the framework of the law. That's what we're fighting for. We are trying to be an example, and we are happy when we see successful results.

**You are a beloved face of the entertainment industry, Mr. Ihsani, how would you interpret the entertainment sector in Turkey? What is Turkey's point of view on entertainment with a real operator's eye?**

The entertainment sector is a sector that will be professionally handled and organized. You need to know well what you want to offer in the organization you are doing, who you want to offer it to, and what you expect. You need to follow a path that is always innovative, following each other, but not repeating. This, of course, also comes out with your vision. Our operators, I am sure, are planning with all good intentions. However, sometimes there are shortcomings and setbacks due to lack of experience, sometimes inability to plan the work correctly. But what I'm starting to see is that people are following beautiful things and trying to improve.

**One of the questions that the Event Participants are most curious about is the question of to what extent do the event owners who organize the event think about us? Can you give information about your event management approach?**

As I have said from the beginning, while the project is planning, guest satisfaction is my priority. As long as you keep this perspective, the work you do always achieves success. For this, I am doing serious planning and organization. I make the planning that will manage the processes from the first communication of the guest until he leaves the event. Perfectionist construction ensures the complete completion of all processes.

**Finally, Mr. Ihsani, How did you like TICKETX, can we find out your ideas about us?**

Although we have just met you, your professional approaches, your guest- and business-oriented perspective have reinforced the idea that you will bring a new working system in the sector and that you can meet expectations. I think that you will make a great contribution to the sector by creating a dynamic structure that meets the constantly evolving expectations in your new platform. I wish you success.

**Let's imagine that you are organizing an event, Mr. Ihsani, under what conditions would you like to offer the tickets for your event to the event participants ?**

First of all, I would like to be with an operator who can accurately convey my vision and expectations. The content of the event should have communication channels that can meet the guest's expectations. In the problems that may arise, I would like to have a corporate culture and experienced employees who can look at the solution oriented, take responsibility and protect the guest and the business.

**Mr. Ihsani, We are wondering about your Projects planned within the framework of the Year 2024 and 2025, would you like to share with us? I think this should be a surprise.**

## • Customer Information

Your information without your knowledge after Logging in to the Ticketing Company Application or Web Page?

**1** Are You Wondering about the Value of 1 Person's Communication and Personal Information on a Global Scale Today? Let's Tell Him Right Now ! they Range from Dec. 8 to \$17. Your information may be being Sold! Are there any irrelevant messages being sent to your mobile phone and Email addresses?

Customers of Ticketing and Reservation Systems on a Global Scale are among the people with the most valuable Data value. Dec. The reason for this is that they Spend Actively and find a place for Themselves in Social environments, the most difficult nokras of the Quality Masses are Ticketing and Hotel Reservation Organizations, The most valuable treasure of the Global World is Undoubtedly INFORMATION / DATA. ! 2024/2. As of Decadal, Ticketing and Hotel Reservation Systems Data Purchase Fee varies between 8/17 Dollars and Sales (It is not clear who it is sold to) 15/30 Dollars in Data Sales Institutions where customers have contact and personal information. Decadal Data Purchase Fee varies between 8/17 Dollars and 15/30 Dollars. The most obvious point of Ticket and Hotel Data being Valuable again is that they provide Access to All the Customer's information and it is Easy to Classify by Elimination method and the Information is Actively Valuable. Ticket and Hotel Customers are included in the most valuable Data Portfolio because they represent a group with a high quality of life and a Potential Money-spending situation.

**Most of the Ticketing and Hotel or Other Applications Used Provide Mobile phone / Tablet / Computer Access, and even if you don't allow it, it's a period when everything that happens on your phones is controlled by Secret software systems.**

## • Service Charge

Let's examine how inappropriate the Charges such as Service fee, Order Fee Received from Customers are!

**2** 10% Service Fee from the Customer ! 12.00 TL Order Price, 12% from the Event Owner, Organizer Ohooo What Kind of Order is This, It Doesn't seem to Make Sense ! The Ticket company Earns the Money that the Organizers Cannot Earn through the Event NET / 22% Commission This is a Big Madness

Ticketing companies that Take 10% Service Fee from Their Customers and are Flooded with Thousands of Complaints, What is the Service Fee of This 10%? Would you like to make a statement. Swearing at Customers on the Phone ? Is it Customer Service that hangs up on people who Buy Tickets and want to Return them because you can't return them? Or is it the Programmers you employ to provide easy access to people's private information? What is the Cost of the Service Received from this 10% Customer ? What is the order price 12.00 TL ? It's unbelievable to see such a disgrace happening.

## 22% NET BRIBE TO the New Generation

Do All Ticketing Companies Sell Our Information ?

Of course, it is Absolutely Impossible to say Yes or No ! From past tense examples, So-called Hackers are Attacking Famous Shopping sites and Stealing Customer information ! The Sale of Information does not only happen by saying Please Buy, but the fact that it is allowed accordingly is the biggest reason for the sale of information.

Your Personal Information Is Not Safe ! Absolutely Not.

Should We Consider a Ticket or Hotel Reservation Institution ? The Event Venue we are talking about is of high quality, the accommodation location is of high quality ? A business with these two elements will definitely not care if you come to Customer Concern or not! Especially if it is a TICKETING institution, Hotel Administrations and businesses may request a certain Deposit! But it is very inappropriate for an Entertainment Institution to want this ! Except in cases such as ( VIP / PROTOCOL ), in these cases, a special application is already performed. It is out of the question that the BUSINESS Needs Anyone's Information! BUT WHY IS THE TICKETING COMPANY SO INSISTENT ? WHY ONLINE PAYMENTS PERSONAL INFORMATION ?

## YOU CAN CLICK TO READ OUR CAMEL'S HORSESHOE ARTICLE

So What is the Cost of the 12% You Received from the Event Owner ?

We are wondering, frankly ? Why are you taking this 12%? Is it because you can't provide Services because Microsoft Crashed? Is it because you have reduced the Event Owner's Ticket Sales online ?

Aaaa, are you doing an event, Are you getting into the idea that we should sell your ticket or you can't sell it or something? With your half-functioning Ticketing systems ?

Really? What is 12% for ? To Collect customer information and Sell it to businesses that are in a Competing Portfolio ? To Come to the Event areas with Your Hand in Your Pocket and Walk Around like King Faruk? No, because so many Tickets have been Sold, is it for your System that Shuts Down due to the slightest Global problem that doesn't work?

For example, what is 12% for If you make a reasonable Explanation, would we like to get a Favor from you and improve ourselves?

In the meantime, Do Not Connect System problems to Banking systems!Dec. Businesses, Event owners, Organizers believe in this! TicketX You can't Tell the Software Team about this.

## • Complaints

**Is there a Ticketing Company that doesn't receive complaints ? Of course, it's not possible, everyone will give the answer ! But there is now. Complaints of existing companies and their real reasons ?**

# 3

Is There a Ticketing Operator who has Not Been Complained About? Let's See Together, Shall We ! Should we examine the Existing Complaints Before That ? There are No Complaints That Will Fit into the Reasonable Mind, There are No Accumulated Complaints On Sharing Sites and Forums!

**DO WE PAY for complaints ?**

It wouldn't be too much if we said millions, There are Thousands of Complaints from All Ticketing Operators Operating in Turkey without exception, not one or two! At the very beginning of Thousands and Common Problems, Different Different Issues such as TICKET REFUND / CANCELLATION, WRONG Category, WRONG Ticket, Non-delivery of Rights! The Most Tragic Funny Complaint We've Seen is that they didn't take the Water I drank to the Event Area! WATER will be provided Free of Charge to all of our Ticketed Guests at TicketX Events. WATER is Not a Point of Profit, it is the RIGHT TO LIFE. Of course, If Commissions are Not Charged from Sales points in Event Areas! The most intense places where you can feel capitalism to your bones are the areas where they apply the harshest sanctions within the Management / Administration of Ticketing and Booking Services, whereas OUR JOB IS TO SERVE YOU ! Of course, it should not be to Complicate the Conditions for You . Why Are They Doing This ? I think A Lot OF MONEY is Definitely A Lot OF MONEY.

**Why Are So Many Complaints Not Being Intervened ?**

There is only one Reason for this, they know that you do not have alternatives, because many 97% Ticketing Companies work with this scheme, if you do not buy from one, you will already get from the other on the same terms ! There is even something even more tragic and funny ! A big Ticketing company owns another Contract ticketing company with a different name! Whoever leaves from us enters there ! Guerrilla Marketing Specialists worked until the end!

**But NOW There is TICKETS! Not as an alternative to this cheeky scheme to hit him with a very big silo ? As we have no doubt that when they remove the Rules they have written one by one, we will see what we have achieved together, so don't let them have you.**

**TICKETX WROTE THE NEW RULES FOR TICKETING OPERATORS, and other So-called Industry Leaders will get used to it.**

**Event participants and business owners do not ask for much. They want to get their safe tickets quickly without any problems and to continue their services by taking control of their events in the most beautiful way.**

**Everything you want is in one place with Ticket X Software Systems**

## • CRM ? Cookies ?

**Of course, it's a little difficult for everyone to know what CRM is, but what can COOKIE policies and permissions that we encounter on almost every website every day lead to ?**

# 4

What is a CRM system?

The CRM system collects, connects and analyzes all customer-related data, including customer information, interactions with company representatives, purchases, service requests, assets and offers. Then the system allows users to access this data and understands what is happening at each contact point. Thanks to this understanding, a complete customer profile is developed and a strong relationship with the customer is established.

Customer data can also be collected for use in sales promotion modeling, sales forecasting, region segmentation, campaign design, product innovation and other sales, marketing and customer service activities. CRM tools and software help you speed up the customer interaction process, close more sales agreements, build strong relationships with your customers, build customer loyalty, and ultimately increase sales and profits.

#### Identity data

Identity data refers to identifying details for determining the identity of customers, leads and related persons. This data should be used for marketing segmentation.

#### Descriptive data

Identifying data includes lifestyle details that are relevant to your relevant contacts. It is the element that completes the wide-ranging view of critical importance for potential customers and related persons.

#### Quantitative data

Quantitative data contains measurable data points that can help you interpret how your potential customers and related people interact with you.

#### Qualitative data

Qualitative data can help you better Decipher the intentions of your contacts, such as their search behavior related to purchasing decisions.

**In Short, CRM Programs are One of the Most Important Software Elements in Collecting All Information! How you Install CRM Features is the most important.**

## TWO COLLARS OF SINGLE TOURISM

On the one hand, the Turkish Side, On the one hand, the Greek Side ! Meeting the Intensity of Summer Tourism on a significant scale, TURKISH and Greek Competition on the Aegean Coasts caused Losses to the Turkish Side in the 2024 Summer Season! Two Identical Kitchens, two Different ACCOUNTS ! here is the first Goal Turkey missed. When Bodrum was taken as an example on the Turkish side, operators lost the Intensity and Turnover they wanted in hotel and restaurant services to the Greek side during the summer season. On the Greek side, where Entertainment and Accommodation Costs were kept lower by Half, Turkish Holidaymakers showed great interest The Aegean Coast did not get what they expected from holidaymakers during the season.

**We will watch and see the results ourselves.**

**Dec April, WHILE CHATTING WITH MY FRIENDS FOR THE SUMMER SEASON, ONE OF THE INTERLOPERS SAID, "BROTHER, THE SEASON WILL BE BAD THIS YEAR."**

And WHAT he said TURNED OUT TO BE TRUE! It has become the most Talked About Holiday Region of the 2024 Season, So Why ?In the First X, I came across an Ad that was thrown out of the Greek Islands, in comparison with Turkey, in the first place, the price differences clearly showed that the Greek islands were Cheaper, then it turned out that there was not much price difference, but still people continued to prefer the Greek islands.

**'The Intensity of the desired Expectations in Bodrum and Cesme, and the Entertainment Sector and Nightclubs did not quite find the intensity that the Beach Clubs wanted and thought about, This was a separate Topic of discussion! ' We will study these Issues together in more detail in the Next Issue.**

In my Professional Career, which has been going on for 24 Years, I have been a Director and Consultant in many Nightclubs. I'm still actively continuing to do it Now, It was from before, I won't say that ! But believe me, the Service Sector was really better and better 5-6 years ago, I will explain detailed explanations about this in my other article, I greet everyone from TicketX Pages as our dating article, It will replace a number of future places in nightlife venue reviews, so hold on tight from now on. # EVENT CONCERT COMPLAINTS

*Melissa Kassis*

**Melissa Kassis, content editing Manager at TicketX, is here with her article on the Complaints of Participants in Events and Concert venues, let's look at why the Most Complaints arise together.**

TicketX Special News, We deal with the sources and real causes of complaints together in our topics, which are examined without Any Corporate organization, how can we eliminate these complaints, we are looking for a solution, We are always the most accurate Source with TicketX.

# TICKETX

www.ticket-x.net info@ticket-x.net

## THE BIGGEST PROBLEM of the EVENT PARTICIPANTS IS INSUFFICIENT SECURITY.

First of all, we conducted research through the web database to access the general complaints, however, we actively directed our questions to the concert participants that we had access to. The biggest problem was SECURITY. When we asked why they had problems with security, they answered that they came to have fun in the event areas, but they were comfortably protected from being in custody, and the event owners were not interested in their safety and rights in any way. Our conversations continued until everything sold the event ticket and got inside.

## Does the business end with Selling Tickets ?

If I answer this first from my point of view, I'm actually interested in the service that happens after entering the event areas, we all buy event tickets somehow through company a or b, but it's very important to me who is interested in me in the event area, I have to have fun with an event that I'm going to have fun with, why would I need to go to events or concerts if I'm going to think about other things.

I have a very active group of friends who are constantly participating in events, when I got their ideas, they almost said that it was ridiculous to go to events and concerts in Turkey, but rather that their participation in special events was increasing, and they preferred events in this direction.

## I Asked My Close Friends ! What Influences You ?

My group of friends I asked my questions to is a group of 20 people, where is there a quality event, people who constantly have 20 tickets, I said, What affects you ? their answer is a little funny, they said we want to be comfortable, they added that just buying tickets does not mean we can have fun in an area, I still think I haven't got the answer to my question, Timur intervened, he said Quality, what do you want to tell about quality, we continued, I like to attend events, concerts, but the point I get service should make me feel comfortable, he said how will you feel comfortable, when I said we want to go to events where we encounter behavior like they have fun or they are treated, he told a lot Dec.

## We have come to the Purpose of the Establishment of TICKETX !

Not because I work with TicketX! I can say this with peace of mind because I really know the management concepts, I think what problems there might be at TICKETX, I really can't find out, Unconditional service is provided, they don't even ask why ticket refunds, they say are you okay, is everything okay ! What will our commission be with the event organizers and operators, they do not insist that these are our terms, first try our services, and then if you are satisfied, they say, of course, we will agree on a common point ! After the customer enters the event area, he definitely encounters TicketX Field staff , they tell the customer how are you, what can we do for you , TicketX does everything that seems to be a lot of must-have plus, which I can't count, without the need to request anything.

There are so MANY COMPLAINTS! They all want their Personal Rights in return !

Can I Refund my ticket ? No, you can't, because we sold it to you. We almost can't see a ticketing company without such approaches.

# TICKET X

www.ticket-x.net info@ticket-x.net

## THEIR ONLY PURPOSE IS TO MAKE MONEY ?

sorry, their first goal.

People who attend events who buy tickets forget that they are human beings ! In an event where the only purpose of the participants is to have fun, of course, the only purpose of the Ticket Operators is not to sell tickets. I want to continue my article by seeing it as selling tickets, we are coming to have fun in the event areas, we are not coming as objects that you or the event space owners can give commands to sit down and get up!

## Food and Drinks CANNOT BE BROUGHT from Outside ! Because.

Because of COURSE we CAN'T sell at 5 Times the price and BRING IT to us when we have to sell at excessive prices!

We call 1/1 Ratio 1/2 Ratio prices cheap now! For example, what are the prices of 1/3 1/4 !

WATER is 50 TL, Beer is 200/250 TL These are the drinks with the most consumption !

Toast is 150 TL, Hamburger is 300 TL Unbelievable Prices ! Of course, people who trade should participate, meet our needs as participants and make money from them, but at this extreme rate, the prices are obvious why such high prices are applied to the products that many people have to buy compulsorily, which they will already buy! Participants are drinking their drinks outside and joining the event areas now it's the funniest situation in the world !

## WC Uses

They think that you will bring 10 Mobile toilets and meet the needs of 2000 people comfortably! Event representatives Do event owners use these mobile wc uses themselves? It shows how bad the situation is that people who see event participants as soldiers under their orders, who will be exploited after entering the areas, almost sit, sit, get up, get up, manage events, and ticketing operators only aim to sell tickets!

## INTERNATIONAL FESTIVALS and CONCERTS

TOMORROWLAND 2024 has been realized! 600,000 PEOPLE Attended ! While event managers and owners in Turkey think that the events they have done themselves are perfectly unattainable in their own fields! TOMORROWLAND is the address of the world's biggest events with 600,000 People What is being done in Turkey? it is believed that 2000 people were unable to solve the use of the toilet, even artists who could not determine the layout, organized funny events and held Events! so funny.

I think one of the biggest features of TICKETX is selective event configuration, a brand that does not arrange event tickets just to sell tickets, TicketX is being very selective about this, the fact that you have an event organization or a business does not mean that ticketx will work with you, your event conditions and details are very important, so the participants feel safe.

## The VISION Factor with TicketX ?

As one of the first people who did not believe that the things they promised me before starting working with TicketX and the beautiful things they told me were not real, the fact that what I see now is much more than what they tell me is one of the situations that affects me a lot as a content manager and a person.

When they told me that they were deceiving the event participants, deceiving the operators, making unfair profits, I thought how much could it be, when I witnessed the numbers that were multi-digit to zero, I had the opportunity to watch an incredible level of money flow. The service fees they receive from the event participants ? the total amount of commissions received from operators is almost 25%, and the service provided is zero on both sides. All of the services provided by TICKETS are free and at a very, very superior level than the existing operators!

I am happy to be a part of such a team.

Thank you for showing that vision is too valuable to be bought with money.

## Mawish Beach & Disco COMPLAINTS

These are the two complaints we see the most through Google!

- We were not let in
- We Were Thrown Out

As the TicketX Team, it is not even sincere for us to answer these two questions because we know the business structure of Mawish Beach & Disco and the attitudes of its operators very well. Mawish is the latest representative of a different culture.

### • WE WERE NOT LET IN

Mawish Security Teams, especially, are no longer taking people who can disrupt or disrupt the flow of people's peace and entertainment in the enterprise because they undoubtedly know, they are not taking no matter who you are, what we call Mawish Culture is exactly this Mawish does not have a business structure where people gather to make money or people with money can exhibit the movements and attitudes they want, you can't wave your hand and wave your hand.

### • WE WERE THROWN OUT

This is where Mawish Culture comes into play again. In Mawish Beach & Disco, Do not Disturb the Peace, You are not allowed to disturb anyone, Men/ Women who have come for fun, You are taken directly outside, they do it without supervision, In a business where there are Families in the business and have high participation, It seems Quite Reasonable not to be allowed in and Taken Out.

## Events at European Standards

Performing Arts , the best Visual and auditory systems of Turkey

Mawish Beach & Disco houses the best Stage installation, Audio and visual systems of the Region according to its location. concerts organized with artists every week, Dj Performances during the day, After Parties later in the day turn into a magical feast at night, Mawish shows its guests that it is the only address for Entertainment at European Standards.

**PALERMO HOUSE, which is also the Best Hotel in the Region Hosted by Mawish Beach & Disco Business**

Mawish Beach & Disco offers PALERMO HOUSE HOTEL Guests Free Admission to Mawish Beach, Event tickets and many other advantages If you want to add a different dimension to your holiday concept, Mawish beach and Palermo House are definitely a must-visit holiday location.
